3Es 情 + 社老師感言：

情 + 社小花園課程循序漸進並全面的規劃，讓幼兒認識各種情緒詞彙、並觀察和理解不同情緒的面部表情和身體動作等，從而建立同理心和利他行為。老師觀察到幼兒在課堂上能感受和代入別人的情緒，透過圖片能說出圖中人物的感受及情緒背後的原因。認識情緒後再學習一些正向的個人和社交技巧，如解難、幫助別人、感恩和欣賞別人。透過學校和家庭手冊的活動，鞏固幼兒所學。期望幼兒能學以致用，在生活中適當地運用出來。

Reflections from the 3Es Emotions + Social teachers:

The Emotions + Social course is designed in a progressive and comprehensive manner, allowing children to first recognize the names of emotions, read the facial expressions and body movements of different emotions, and then develop empathy and altruistic behavior. Teachers observed that the children in the classroom can feel and empathize with others' emotions, and can describe the feelings of the characters in the pictures and the reasons behind their emotions. After learning about emotions, they also learn some positive personal and social skills, such as problem solving, helping others, gratitude, and appreciation of others. Through the activities in the school and home handbooks, the children's learning is reinforced. It is hoped that the children can apply what they have learned in their daily lives.

3Es 情+社小花園課程是一個有系統的課程，並由淺入深教授社交情緒相關的知識和技巧。透過日常操弄「情緒溫度計」、「聲音數字表」等教材學習表達情感外，課程也設有不同形式的遊戲，有效引導幼兒認識和學習處理自己的情緒，更能建立幼兒的同理心，學習留意別人的情感，培養他們用愛心關顧身邊的人和事。幼兒們都十分投入學習！

The 3Es Emotional + Social Emotional Education Course is a systematic one that goes from easy to deep through daily use of "emotional thermometer", "sound digital meter" and other teaching materials to learn how to express emotions. The course also designs different forms of games to effectively guide children to understand And learning to deal with their own emotions will also build children's empathy, learn to pay attention to other people's emotions, and train them to care for the people and things around them with love. They are very dedicated to learning!
