### 校長的話

Message from the Principal

親愛的家長：

本年度兩個重點推行目標(關注事項)包括：

- (一) 透過推行中華文化美藝活動，促進幼兒創意能力及對中國文化的藝術欣賞。
- (二) 培養幼兒的自理能力，提升幼兒的自律性及自信心。

(一) 透過推行中華文化美藝活動，促進幼兒創意能力及對中國文化的藝術欣賞。

為加深幼兒及家長對中華文化的認識，今年將繼續進深學習有關中華文化的美藝活動。研究指出，穩定接觸藝術創作的孩子，在專注力、解決問題的能力、自信心、語言表達與情緒穩定度上，都會表現得更好。此外，中華藝術強調觀察力與細節表達，如書法的筆劃控制、水墨畫的墨色變化…等，幼兒在創作過程中能提升專注力、想像力與解難能力，促進多元智能發展。因此，本園於今年內推行以下有關中華文化的藝術活動，包括：

幼兒班	設計唐裝服飾	製作糖蔥餅	少林功夫文化體驗日
	探索中國樂器	誦讀唐詩「靜夜詩」	探索中國傳統的玩具
低班	設計功夫扇	水墨畫	少林功夫扇武術體驗日
	欣賞中國樂曲	製作砵仔糕	華服試穿體驗
高班	拼砌長城	寫揮春	彩虹書法體驗
	製作雞蛋仔	設計青花瓷圖案	學習羽扇舞
	認識粵劇做手		認識窗花剪紙藝術
親子工作坊	中式微景觀瓶景工作坊	製作餃子	迷你青磚紅磚建築工作坊
	印刷術(拓印)工作坊	製作傳統糉子	製作湯圓
家長工作坊	製作雞公碗、雞公碟		『賀年限定』揮春畫環保永生苔蘚工作坊

學習中華藝術能幫助幼兒提升創造力、情感表達，同時促進幼兒認知、社交及全面發展。因此，我們期望結合藝術創作及中國文化，讓幼兒在遊戲與體驗中自然吸收文化知識，體會中國藝術的獨特之處。

## (二) 培養幼兒的自理能力，提升幼兒的自律性及自信心。

談到培養幼兒的自理能力，相信大部分家長都會認同其重要性。幼兒自理能力的重要性在於它是幼兒獨立生活的基礎，能促進身體發展、認知能力、情緒穩定與社會適應。它的重要不但在於幫助幼兒學習自我照顧及建立責任感，還在幼兒動手做的過程中幫助他們建立專注、手眼協調、計劃及解難等能力。透過自理能力的培養，幼兒能建立自信與成就感，學會負責任，避免依賴成人，進而促進心理與生理的全面發展。

因此，今年的另一重點目標是：培養幼兒的自理能力，提升幼兒的自律性及自信心。本園於各級的課程，加入以下不同的訓練，包括：

	幼兒班	低班	高班
10月	離開座位時 將椅子放好	離開座位時 將椅子放好	將功課分類放好
11月	玩完玩具會放好	保持桌面清潔	收拾茶點物品 及清潔桌面
12月	茶點後自行抹嘴巴	如廁後， 自行整理衣服	斟水不會弄濕桌面
1月	能守秩序排隊 及輪候	物品用後會放好	用夾夾食物
2月	茶點後， 收拾個人用品	自行交功課	會穿脫鞋襪
3月	用肥皂洗手及抹手	自行用水壺斟水	順序扣鈕扣
4月	懂得將垃圾放於 垃圾桶內	會把衣服掛在 衣架上	自行收拾書包用品
5月	自行交功課、手冊	保持功課整潔	正確地自行穿外套
6月	將物品自行 放入書包	用紙巾抹鼻子	自己寫手冊

幼兒自理能力的培養是多面向的發展過程，透過日常生活的實踐與適當引導，能有效促進孩子身心健康與獨立自主的能力。大人若能耐心引導、適時放手，透過家校緊密的合作，孩子必定能在自理過程中，逐步建立獨立、自信與責任感，為未來成長奠定穩固的基礎。

蔡家蓮校長  
2026年2月

Dear Parents:

The two key objectives (areas of concern) for this year include:

( a ) Promote Chinese cultural activities through art activities, and enhance children's creativity and appreciation of Chinese culture and art.

(ii) Cultivate children's self-care ability and enhance their self-discipline and self-confidence.

i. Promote Chinese cultural activities through art activities, and enhance children's creativity and appreciation of Chinese culture and art.

This year, we will continue to offer in-depth creative activities about Chinese culture to deepen children and parents' understanding. According to research, children who routinely participate in creative production demonstrate better performance in areas such as concentration, problem-solving skills, self-confidence, language expression and emotional stability. Furthermore, Chinese art places an emphasis on observation and detail, such as stroke control in calligraphy and ink tonal changes in ink painting. Children can increase their focus, imagination and problem-solving skills by engaging in creative activities, which promotes the development of multiple intelligences. Therefore, this year our kindergarten will implement the following art activities relating to Chinese culture, including:

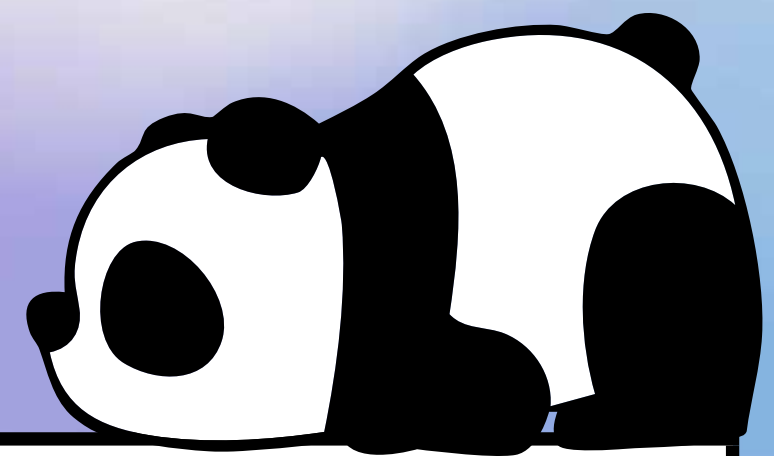

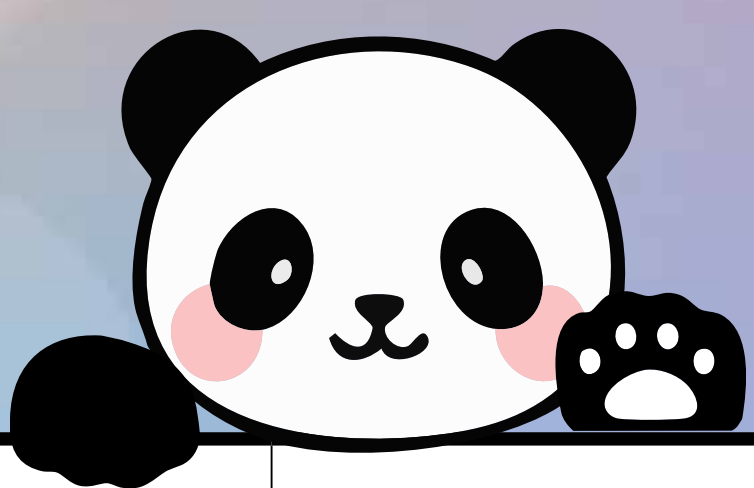

K1	Design Chinese jackets (Tang suits)	Make sugar scallion pancakes	Shaolin Kung Fu Experience Day
	Explore Chinese Musical Instruments	Recite the Tang poem: " Quiet Night Thought "	Explore Chinese tradition Toy
K2	Design Kung Fu Fan	Create ink paintings	Shaolin Kung Fu Experience Day
	Enjoy Chinese music	Make Red Bean Pudding	Chinese clothing try-on experience
K3	Build the Great Wall	Write Chinese calligraphy	Rainbow Calligraphy Experience
	Make egg waffles	Design Chinese porcelain patterns	Learn Feather Fan Dance
	Get to know Cantonese opera		Learn Chinese paper-cutting
Parent-child workshop	Chinese miniature landscape bottle	Making dumplings	Miniature blue and red brick building workshop
	Chinese Rubbing Print Making Workshop	Making traditional dumpling (Zongzi)	Make Chinese glutinous rice balls (Tangyuan)
Parent Workshop	Make Chinese rooster-patterned bowl	'Limited-Time Lunar New Year' Calligraphy and Painting Eco-Friendly Moss Workshop	

Learning Chinese art can help young children improve their creativity, emotional expressiveness, and general cognitive, social, and overall development. As a result, we seek to integrate creative creativity with Chinese culture, allowing children to naturally absorb cultural knowledge and appreciate the unique qualities of Chinese art through play and experience.

## ii. Cultivate children's self-care ability and enhance their self-discipline and self-confidence.

Most parents would agree on the importance of cultivating self-care abilities in young children. Self-care is important because it serves as the foundation for independent life by encouraging physical growth, cognitive capacity, emotional stability, and social adaptation. It not only teaches children about self-care and responsibility, but it also helps them develop concentration, hand-eye coordination, planning, and problem-solving abilities through hands-on activities. Children can gain confidence and a sense of accomplishment by developing self-care skills, learning responsibility, avoiding adult reliance, and therefore promoting their overall psychological and physical development.

As a result, another key objective this year is to cultivate children's self-care abilities while improving their self-discipline and confidence. Our kindergarten the following training approaches at each level of the curriculum:

	K1	K2	K3
OCT	Put chair under the table upon leaving the seat .	Put chair under the table upon leaving the seat .	Organise homework into different categories.
NOV	Put the toys away after playing.	Keep the table clean.	Put away items and clean the table after snack time.
DEC	Wipe their mouth after snack time.	Adjust their clothes after using the toilet.	Pouring water without spilling.
JAN	Queue and wait in an orderly manner.	Put away items properly after use.	Use tongs to get food.
FEB	Put away belongings after snack time.	Submit homework without help.	Put on and take off socks and shoes.
MAR	Uses soap to wash hands and wiping hands dry after.	Pour water from a jug without help.	Button their jacket from top to bottom.
APR	Throws away trash in the trash can.	Hang clothes on the hanger.	Pack their school bag and items without help.
MAY	Submit homework and handbook without help.	Keep your homework neat and tidy.	Put on a jacket properly.
JUN	Pack the items into their backpack without help.	Wipe the nose with a tissue.	Write their own handbook.

Developing self-care skills is fundamental in the development of young children. Through everyday living practices and appropriate guidance, it can effectively promote children to be independent. Children will gradually gain independence, self-confidence, and a sense of responsibility in the process of self-care through close collaboration between home and school, provided that parents are willing to provide guidance and opportunities to try.

Through close cooperation between home and school, providing that parents are willing to provide guidance and opportunities to try, children will gradually build their independence, self-confidence, and a sense of responsibility in the process of self-care, laying a solid foundation for their future growth. This will establish a firm basis for their continued overall development.
